RISK LEVEL

The rating is based on historical data and may not be a reliable indication of the future risk profile. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

INVESTMENT OBJECTIVE

The Compartment's objective is to protect and significantly grow the purchasing power of investors' capital over the long term. The Fund will invest mainly in global equities with an allocation range to equities of between 80-100% of the Compartment, with a strategic aim to be fully invested in normal market conditions. The balance will be composed of fixed income and/or cash at the investment manager's discretion. The risk profile of this strategy is Medium/High. The choice of investments will not be limited by geographical area, economic sector or currency and investments are made with no reference to a market index. The Compartment is likely to hold 25-40 equities at any given time. The criteria for the Compartment's investable base of companies include:

- Industry tailwinds
- Sustainable competitive advantage
- Financial strength
- Management's track record

This investment strategy is appropriate for clients with a five year plus time horizon. The Compartment is actively managed. The Compartment has no benchmark index and is not managed in reference to a benchmark index.
